-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

2. Claims 1-13 are pending with claims 14-17 having been canceled.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 3-5 recite that the "first piston" extends outwardly of the "first cylinder" while in the extended position. The piston rod rather than the piston extends outwardly of the first cylinder under the extension stroke. Claim 1 should be amended to recite and distinguish between the piston^S_A and piston rods by clearly defining "a first piston", "first piston rod", "a second piston" and "a second piston rod" to set forth a complete and operative invention. The dependent claims should be amended to be consistent with changes to claim 1.

5. Claims 1-13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3683

6. The term "canal" or "canals" in claim 1, line ¹³~~3~~_^ and in claims 10-13 should be replaced with a more appropriate term such as "conduit" or "conduits".
7. It is suggested that the drawings separately label the pistons and piston rod with the detailed description reflecting any changes.
8. Edwards et al (2977146), Stoll et al (5069317) and Booker et al (US 2004/0227280 A1) disclose pneumatic dampers.
9. Zimmer et al (143) and EP 1433915 A2 are cited to complete the record.
10. Note a copy of STIC translation for DE 19740143 to Haha is enclosed.
11. Any inquiry concerning this communication should be directed to Exmr Butler at telephone number (703) 308-2575.
